

September 12, 2008

Janis Nowlan  
Janis Nowlan Orchestra

Dear Janis:

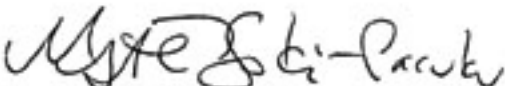

Thank you for your excellent performance at our September 6, 2008, wedding. The band expertly fulfilled our wish for a "Philly Soul and Motown" vibe. The dance floor was full, as you promised it would be. I especially loved the handling of our song, "You are Everything." I have beautiful memories from that dance.

But you also choose other genres well. A guest from Venezuela said that at one point, the band "got tropical." And I know that my husband was very happy to hear a Michael Jackson song—he was one of the first American musicians heard in Communist Albania when Edi was growing up.

Throughout the evening and ever since, guests have been raving about the band. If I had a dollar for every time I heard, "Where did you find the band?" I'd be able to throw the entire event again!

From the moment I met with you and watched a video of your band, I knew that you brought the highest quality. But now I can say that you also brought value—you and your band are worth much more than we paid you, for you made our wedding reception a huge success.

Sincerely,

Margaret Krzeminski-Pacuku
