Janis Nowlan
Janis Nowlan Orchestra

Dear Janis,

Thank you so much for helping to make our wedding such a special event. From learning new music for our first dance to staying overtime so our guests could keep dancing to your great sound, you and your band really made the difference between "just another wedding" and a really special, personalized event.

We interviewed several bands and listened to countless demo tapes in preparing for our wedding, but it was clear to me from our very first conversation that your band was different. You listened to what we wanted and created an evening of music tailored to our wishes. Your band can play absolutely everything and do it superbly. And our guests noticed. We had so many people, young and old, come up to us to say what a wonderful band you were. Since we had a lot of single friends at our wedding, I am hopeful that we'll get to dance to your fabulous music again at one of their weddings!

Thanks again,

Kathleen Dunlop
